DIAMOND COAT

Diamond Coat is a revolutionary floor finish that combines deep gloss, high durability and ease-of-use into one product. High molecular weight acrylic polymers and our unique nano-zinc cross-linking produce a beautiful, long lasting shine that resists black marking, scuffing and soil penetration. Diamond Coat is ideal for limited maintenance settings such as classrooms, patient rooms, and offices. It responds well to occasional, or frequent burnishing with a hair blend pad – making it suitable for retail establishments, hallways and other frequently maintained areas.

Nano Extreme

FEATURES

Incorporates our unique nano-zinc technology for more thorough and denser cross-linking of finish

Ammonia-free for dramatically-reduced odor

Fast-drying - 15 to 20 minutes under normal conditions

Low-emissions formula

Nano-zinc cross-linking provides superior:

- Lay-down gloss
- Durability
- Gloss build
- Mark resistance
- Soil resistance
- Dry and recoat times

Ideal for limited maintenance programs, yet responds to daily burnishing, if desired

Slip resistant per ASTM D2047

PHYSICAL PROPERTIES

TypeAcrylic Emulsion
FormOpaque Liquid
OdorBland
ColorMilky White
Film ClarityClear
Weight per Gallon8.57 Lbs.

pH8.0 - 8.5
Floor Solids20%
Storage StabilityMin. 1 Year
Freeze/ThawProtect From Freezing
V.O.C.0.59%
